Dr. A. P. J. Abdul Kalam Technical University Lucknow, Uttar Pradesh, India
Computer Science and Engineering

M.G. Inter College Dharmpur Tundla Firozabad

10th and 12th

68.2% and 68.17%

PROJECT

WhatsApp Chatbot

Tech Stack - Python, Twilio API

- Developed a WhatsApp chatbot using the **Twilio API** for real-time user interaction.
- Automated **user queries and predefined responses** through WhatsApp messaging.
- Integrated **backend logic and API services** for dynamic message processing.
- Reduced manual effort by automating routine communication tasks.

Smart Parking Slot Management System

Tech Stack - Python, Flask, MongoDB, HTML, CSS, JavaScript

- Developed a web-based system to manage parking slots and bookings efficiently.
- Added real-time slot availability and booking management.
- Created an admin dashboard to monitor parking statistics and records.
- Automated parking management to reduce manual effort and improve efficiency.

AI-Based Assignment Checker Web Application

Tech Stack - Python, Flask, Generative AI

- Developed a web application to automate assignment evaluation using Generative AI.
- Implemented separate teacher and student modules for assignment creation and submission.
- Automated assignment scoring and feedback generation using AI.
- Reduced manual evaluation effort by approximately 70% and improved evaluation speed and consistency.

ACHIEVEMENT

- Certificate in C and Data Structure by RCPL
- Generative AI Knowledge

SKILLS

- Languages: Python, C, Basic Java
- Web: HTML, CSS, Basic JavaScript
- Database: MongoDB, MySQL
